Subject: RE: Meeting with Osaka Gas USA at NARUC Summer Policy Summit in San Diego

Hi Mr. Gee,

Chairman Haque is happy to meet with your client but would like you to continue to work with me concerning his NARUC calendar. We still need to determine the dates/times for his committee meetings during the NARUC Policy Summit and work around those dates to schedule the meeting with Osaka Gas USA. I am mindful of the Monday or Tuesday availability for Osaka Gas as well as breakfast on the 18th so I will work towards matching the Chairman's calendar up with one of those dates.

Thank you,

Judy

Judy Lowery

Office of Chairman Asim Haque

Public Utilities Commission of Ohio

180 E. Broad Street

Columbus, OH 43215

Subject: Meeting with Osaka Gas USA at NARUC Summer Policy Summit in San Diego

Hi Asim,

You have been very generous of your time, so I am reluctant to make yet another request. However, I hope you will accept this opportunity as it relates to our upcoming DOE Commissioners' Mission to China and Japan. My client, Osaka Gas USA (OGU), is attending the upcoming NARUC Summer Policy Summit in San Diego. You may recall meeting with OGU at the NARUC Annual Meeting in November 2015 in Austin, where they shared information regarding their ownership of natural gas and power generation assets throughout the United States. At that time, OGU also communicated their interest in acquiring natural gas distribution assets. Currently, they are expanding their scope of interest to include opportunities in distributed generation, renewables, microgrids, and combined heat and power.

They have asked to meet with you once again to continue the previous conversation, with emphasis on the latter areas just mentioned. Also, as an FYI, our current itinerary for the Japan portion of our Commissioners' Mission in August includes an entire day in Osaka. There, we will meet with the company's headquarters to learn about Osaka Gas' activities in Japan and throughout Asia. The meeting will cover a variety of topics, including the role of US LNG exports to Japan, and energy efficiency technologies being deployed in the natural gas residential sector, as well as a potential site visit. A meeting in San Diego will give OGU an opportunity to preview of what you will hear and see in Japan, and an opportunity for you to ask questions.

As before, the anticipated meeting time would not be greater than 30 minutes. They are available on either Monday or Tuesday, July 17 and 18, and can meet at breakfast on either day if that is desired.

I am attaching an informational slide deck as background.

Finally, OGU would also like to invite you to join them at a Japanese-style dinner they are hosting for several commissioners on Monday, July 17, at Nobu San Diego.

In any event, I hope we would be able to meet during the day, at breakfast, or at dinner, to the extent your schedule allows.

Kind regards,

Bob
